

Liam O'Connor

DevOps & Cloud Infrastructure Engineer

liam.oconnor@example.com · +353 1 234 5678 · Dublin, Ireland

SUMMARY

Dedicated DevOps engineer focused on automation, continuous integration, and robust cloud infrastructure management.

SKILLS

AWS · Docker · Kubernetes · Terraform · Python · Linux

EXPERIENCE

Senior DevOps Engineer — Emerald Cloud Systems

2019-11 – Present

- Designed and implemented immutable infrastructure using Terraform and AWS.
- Managed large-scale Kubernetes clusters running on EKS, ensuring 99.99% uptime.
- Authored custom automation scripts in Python to streamline deployment pipelines.

Systems Administrator — Dublin Tech Labs

2016-04 – 2019-10

- Maintained Linux server environments and automated routine backup procedures.
- Troubleshooted network issues and improved internal security compliance policies.
- Introduced Docker containerization to simplify local development environments.

EDUCATION

Bachelor of Arts in Computer Science

2016

Trinity College Dublin
