

Jane Doe

Senior Software Engineer | Python & Distributed Systems

jane.doe@example.com · +1-555-019-2834 · San Francisco, CA

SUMMARY

Results-driven Software Engineer with over 7 years of experience specializing in backend development, scalable microservices, and robust Python ecosystems.

SKILLS

Python · Django · FastAPI · Docker · AWS · PostgreSQL · Redis

EXPERIENCE

Senior Software Engineer — Apex Cloud Systems

2021-03 – Present

- Architected and deployed high-throughput microservices using Python and FastAPI, reducing API latency by 35%.
- Migrated legacy monolithic database architecture to PostgreSQL on AWS RDS, improving data retrieval speeds.
- Mentored junior developers on best coding practices, automated testing, and CI/CD pipeline optimization.

Software Engineer — DataFlow Dynamics

2018-06 – 2021-02

- Developed automated data ingestion pipelines processing over 5 million daily records using Python and Celery.
- Collaborated with product teams to design RESTful APIs serving web and mobile client applications.
- Implemented comprehensive test suites with pytest, maintaining 90%+ code coverage across all repositories.

EDUCATION

Master of Science in Computer Science

2018

University of California, Berkeley

Bachelor of Science in Electrical Engineering and Computer Sciences

2016

University of California, Berkeley
