

Aisha Patel

Machine Learning Engineer & Data Scientist

aisha.patel@datavision.io · +1 415 555 0143 · San Francisco, CA, USA

SUMMARY

Data Scientist and ML Engineer specializing in natural language processing and predictive modeling. Adept at turning complex datasets into actionable business insights and deploying robust production models.

SKILLS

Python · TensorFlow · PyTorch · AWS · SQL · Docker · MLOps

EXPERIENCE

Machine Learning Engineer — Apex AI Labs

2022-01 – Present

- Designed and trained transformer-based NLP models using PyTorch to automate customer support routing.
- Deployed production-grade ML pipelines on AWS SageMaker, handling over 2 million daily predictions.
- Collaborated with product teams to define data collection strategies and improve model accuracy by 18%.

Junior Data Scientist — Silicon Data Corp

2019-06 – 2021-12

- Wrote complex SQL queries and Python scripts to clean, transform, and analyze large-scale user datasets.
- Built interactive dashboards in Tableau and Streamlit for executive stakeholders.
- Conducted A/B testing for core recommendation features, driving a 12% increase in user engagement.

EDUCATION

Master of Science in Artificial Intelligence

2019

Stanford University

Bachelor of Science in Statistics

2017

University of California, Berkeley
