Aisha Patel

Backend & Cloud Developer

aisha.patel@example.com · +1-555-492-1102 · Seattle, WA

Summary

Versatile backend engineer with strong command of Python, Node.js, and serverless cloud architectures on AWS.

Skills

Python · Node.js · AWS Lambda · DynamoDB · GraphQL · TypeScript

Experience

Backend Software Engineer — Pacific Software Inc.

2021-01 – Present

- Designed and implemented serverless backend systems using AWS Lambda, API Gateway, and Python.
- Constructed high-performance GraphQL APIs serving web and mobile client applications.
- Optimized NoSQL database queries in DynamoDB, significantly lowering read/write costs.

Junior Software Developer — Summit Digital

2019-05 – 2020-12

- Built internal management tools using Python, Flask, and SQLite.
- Participated in daily agile standups and code reviews to maintain high code quality.
- Assisted in refactoring legacy codebase to adhere to modern design patterns.

Education

Bachelor of Science in Computer Engineering

University of Washington · 2019
