# Amina Diallo

## Machine Learning Engineer & Data Scientist

amina.diallo@example.com · +33 1 42 68 55 00 · Paris, France

### Summary

Results-driven Machine Learning Engineer specializing in natural language processing and predictive modeling. Proven track record of deploying robust AI models into production environments.

### Skills

Python · TensorFlow · PyTorch · Pandas · Scikit-Learn · Kubernetes · AWS

### Experience

#### Machine Learning Engineer — Paris AI Labs

2020-09 – Present

- Designed and trained transformer-based NLP models using Python and PyTorch for sentiment analysis.
- Deployed machine learning pipelines to production using Kubernetes and AWS SageMaker.
- Collaborated with product teams to translate complex business requirements into data science solutions.

#### Junior Data Scientist — DataCorp Europe

2018-07 – 2020-08

- Cleaned and analyzed large datasets using Pandas and NumPy to uncover key customer segmentation insights.
- Built predictive churn models that improved user retention rates by 12%.
- Presented analytical findings and data visualizations to executive stakeholders on a monthly basis.

### Education

#### Master of Science in Artificial Intelligence

École Polytechnique · 2018
